Great, thank you Jeff. At this point, just today, the date had been flagged for Margaret Enloe and Howard County/Ken Ulman.

Linda, let me know if I can provide further information to you. I'll follow up with a phone call tomorrow.

Best,
Helena

You've got Linda on this email...so she can handle the Shawn availability. I recommend reaching out to Nick directly about his availability. Please keep me in the loop as this evolves so I can let our HQ comms folks know.

Thanks...jc

If the 21st holds you will be missed, Jeff, but there's no way we can compete with your son.

Yes, Mr. DiPasquale and Mr. Garvin have been absolutely instrumental champions from the start and they are essential to the rollout. I hope the 21st works for them, and we hear confirmation from Howard soon on time and venue. MDE's communications shop is going to formally reach out to scheduling contacts, but let me know of anyone in particular you think I should reach out to re: Nick and Shawn's availability.

Many thanks,
Helena

Congrats on getting across the finish line. Unfortunately the 21st won't work for me. I am heading to UWV that day to pick up my son and bring him home for Thanksgiving break. MDE has also reached out to the Chesapeake Bay Program Office to see if Nick DiPasquale - the Office Director – was available. Since this is a Partnership Program, I think Nick is a good face for the event...and he has been very supportive when we hit some of the roadblocks. Shawn should likely have a role as well.

Thanks...jc

Yes! We thought this day would never come!

MDE just suggested the morning of Friday, Nov 21, within the 10-12 timeframe. Looks good for Summers and Sarbanes. Awaiting confirmation from Howard County but in the meantime, your thoughts on the date? Would you and your bosses be able to attend?

You two are our Watershed Stars, ha ha. We would not be to this point without your efforts. Thank you both.

The window decals have been printed and they look gorgeous. I'll have some sent to you.

Very best,
Helena

I hear there may soon be an announcement/pubic roll-out of the Watershed Stars program in MD? True?
